DENNY TO TRAIN STANFORD GRIDS

Trainer of Carlisle Indians is Given Position

Pop Warner Recommends Former Assistant for Job

Redskin Well Qualified for Palo Alto Berth

STANFORD UNIVERSITY, April 17.—Wallace Denny, who was trainer of the Carlisle Indians when "Pop" Warner's team defeated Pennsylvania, Cornell, Harvard, and other big colleges, will perform the same services for Stanford's teams in the future. He was selected on Warner's recommendation as the best man to be found to keep Stanford varsity athletes in the pink in physical condition. Denny is a product of the Carlisle school; he was a student and athlete there until 1919 when the Indian school was abandoned and became an army school. He was for three years in full charge of all athletics there. He is, therefore, more than usually qualified for his job of trainer at Stanford. Denny is an Okla. Indian. He has never used tobacco or liquor in any form.

He is highly recommended for ability and character by all the men under whom he has worked, including Earl "Doc" Harkness, retired, and Col. P. M. Ashburn. Warner says, "I have known Wallace Denny ever since 1919 when I went to Carlisle and he was a student there. He was on the football and basketball squads and was a member of the track team. After he was graduated he was my assistant for several years, working up until he was sent to me in coaching. Then he took full charge of the school's track team in addition to work on the school staff as disciplinarian. He was faithful and competent as an assistant and his enthusiasm always was inspiring to the team. I am glad we are going to have him at Stanford."

WINNER SPEEDS TO FOOTLIGHTS IN PLANE

Harry Harts, "boy wonder" of the automobile racing game and winner of the Easter derby at San Carlos Sunday, tore large chunks of cement loose from their settings yesterday, when he flew from San Francisco to Los Angeles in slightly over four hours. The newly-crowned speed king was held up in San Francisco to collect the prize money he won in the derby, and a pressing engagement in the shape of Eddie Hearnes' debut here as a stage star would not permit of delay until the next train south. So Harry grabbed a sky taxi and humped it over the ridge in time to be among those present when Hearnes appeared at the Hillstreet Theater yesterday afternoon.

FLIVVERS TAKE ANOTHER FLOP.

The price of Henry Ford's celebrated run-hopping product took a terrific flop again yesterday when it was announced by I. B. Groves, assistant manager of the local assembly plant, that Ford will sell for \$10 less than heretofore.

"This reduction," said Mr. Groves, "represents the saving in freight that has been effected by better methods of handling the knocked-down material which is shipped to Pacific Coast assembly plants. It does not represent any reduction in freight rates by the railroads, but more efficient methods of freight handling by the Ford employees, and it is simply another typical example of Mr. Ford's policy of seeing that the ultimate consumer gets the benefit of any increased efficiency."

Mr. Groves, in making the announcement yesterday, estimated that the direct saving to people in this district, which includes Southern California and Arizona, will, at the present rate, be in the neighborhood of \$400,000 during the remainder of the year.

This, the first work day of the week on our baseball schedule, would be a good time for the Angels to reflect on their behavior and decide to do better.

Said suggestion is not predicated on their loss of the odd game of the series to Vernon, so particular importance attaching to any one series this early in the season, but because of their manner of losing it, which doesn't bode well for the future.

Killefer told me that the men were overanxious to win. Can't agree with him. They didn't appear anxious enough. Candidly, they played poor ball in nearly every department, and particularly on the base, where there was some leaping, poor judgment and a stinking third or two of dumb baseball. There are plain words, but perfectly true, and we wouldn't waste them on a visiting team in which we have no concern.

Some changes were taken when not warranted, or at the wrong time, and vice versa. Collectively the club didn't give an impression of much speed. True, it is by no means a flash on the base, but faster than it showed.

There was too much leaping going down to first base on grounders hit to the infield. This is inexcusable. Twice such grounders were fumbled and both men would have been safe had they run them out. One of these lapses cost a ball game.

Los Angeles pitching failed to come up to predictions. Crandall's thirteen-inning win in the opener was the week's best exhibition, but Doc was rather an easy mark in the final. Elmer Ponder, turning in his second win of the season, apparently qualified as one of the league's best pitchers. Lefty Thomas, responsible for the other win, was hit hard, but with good support would have turned in a passably good score sheet.

Lyons pitched fair ball, losing a close game, but he must show more steadiness before we can feel confident in him. Dumovich was beaten. Hughes thus far has pitched in a way to arouse the fear that he is experiencing the after-effects of winter baseball. Hall has shown nothing so far except a good personal appearance in the box. He should be good later. But how long will it be before he and Hughes show?

It is a staff which should win. There was abundant training with little interruption from bad weather. Yet by the end of the second week it seems to have slumped down to Crandall and Ponder as the only positive dependables, and they cannot, of course, turn in two wins a week each as a steady thing. We expect big things from Dumovich, except on those days when his control is faulty. Thomas should win if he can shake his bad luck. Lyons appears on the upgrade, but still has us guessing.

Right now Los Angeles should have four pitchers capable of taking their regular turn with reasonable assurance of winning a majority of their games.

True, they were handicapped in their last two games by the absence of Twombly and McCabe. But Vernon had a disastrous break in the loss of Dell. But for Wheeler's busted rib it is by no means certain that Los Angeles would have taken more than two games, if indeed more than one. It is very doubtful whether Dell would have beaten Crandall in the opener had he been able to continue, but there was the possibility. Then, Wheeler would have pitched the first game Sunday, and would have won it, judging from the five runs registered by the Tigers in that contest.

An easy opening week against Portland left the Angels overconfident, and they also probably allowed themselves to be beguiled by fairy tales depicting Vernon pitchers as in poor condition.

Vernon's pitching, regarded as the club's doubtful department, performed in a way to wipe out some of the interrogation points. Dell proved that he is just as good as ever. May showed some of the best southpawing seen here in many a day. Shellenback demonstrated that his arm has recovered. Gilder looks good. James floundered through to a victory. Bill's control probably always will bother him, and yet he should win quite a batch of games in this circuit. Love and Doyle are doubtful propositions. Tony Faeth appears hardly ready, but should turn in a fairly steady stream of victories.

Right now Dell, Shellenback and May stick out as the class of the staff, although Mater and Esick are said to fancy Gilder. May looked so easy, and yet proved so hard, that the secret of his success is hard to determine as yet. Esick says it is just stuff. Possibly Jakis has just arrived.

Two heavers of the caliber of Dell and Shellenback will carry any club over quite a route, providing that club plays the alert ball which the Tigers showed last week.

Aside from May's showing and Shellenback's recovery, Ray French's work around short was the week's sensation from a Tiger's standpoint, except, possibly, Hughie High's scientific playing of the boards in left field.

Charley Deal's playing around third base Sunday was a masterpiece which probably went largely unappreciated. Deal plays the base so easily as to give the idea that he isn't trying. True, he was nursing his arm and throwing only lightly, but he was hardly in shape to play at all, let alone cutting loose. His handling of bunts was particularly nifty, and he seemed to sense out when they were going to be dumped in his direction. It may be a couple of weeks before Deal gets into his stride, but when this happens it will be found that he and third base are partners with a perfect understanding of each other.

GRAPPLERS MIX TOMORROW

All is set at the gymnasium of the Union League Club for the big wrestling match tomorrow night between Constantine Romanoff, champion of the Pacific Coast, and Fred Morrison, better known as the "Terrible Dane". Morrison has met some of the best grapplers in Europe and America and comes heralded from Chicago as a top-notch.

Both men have trained faithfully for the bout and both declare they are in the pink of condition. They will wrestle ten rounds of ten minutes each, with a two-minute rest between rounds. The main event will be preceded by two high-class prelims. The Morrison twins, boy and girl, the youngest wrestlers in the world, will also give an exhibition.

QUINTET RELEASED BY GUS GLEICHMAN

Gus Gleichman, manager of the Edmonton club of the Western Canadian League, which is now in training at the Vernon ball park yesterday released five players. Alex Stupin, Pete De Maggio, Al Gioia, John Bignay and Herb Eyer are the men released. Yesterday the Canadians defeated the Ventura nine on the latter's field by a score of 11 to 1.

JEFFRIES TO REFEREE AT BENEFIT

Former Ring King Will Appear in Gala Boxing Show to Aid Ad Wulgarst

Jim Jeffries, former heavyweight champion of the world, will referee some of the bouts at the benefit show to be held for Ad Wulgarst at the Vernon arena next Saturday night.

When Jack Doyle first announced the plans for the benefit for the former lightweight champion, Jeffries got busy on the phone. "I'll fight Dempsey to help raise money for Ad," said Jeff. "Tell me what I can do to help and I'll be there."

Joe Rivera, Leach Cross, Jack Root, Billy Papke, Kid McCoy and many other old-time boxers have also volunteered their services.

While the old-timers will appear as referees there will be no exhibitions on the card. It will be a show as full of fight as any Vernon or Hollywood card.

ERNIE MEETS GOR

Ernie Goosen and Sailor Kramer have been lined up to box the wind-up. The two fought a sensational draw at San Diego recently. Goosen started by slugging the sailor all over the ring, but during the last two rounds Kramer rallied and fought himself into a draw.

Chio Hosh and Bud Soules boxed a semi-wind-up and main event at Vernon and both bouts were sensational. At the Wulgarst benefit they will clash again. Both have been boxing regularly and will be in the best of shape.

"Wad" Wadhams is trying to get in touch with Ad Rubidoux with the idea of matching him with Doug Egan. If the bout goes over it will be one that would be a main event for any four-round show.

VINCENT FACES SUMNER

Sailor Vincent, who has been putting up some great bouts at Hollywood, has been matched with Young Sumner, a Vernon favorite. Three other bouts will complete the card. Powderpuff punchers have been sidetracked for the time being and it is planned to put on seven bouts, every one of which will be a slugging match.

The seat sale opened yesterday. Regular Vernon prices will be charged.

THE REAL WAY TO SAVE ON TIRES

There is only one sure way to save money in buying tires.

That is to buy the tire which has the greatest possible value built into it, and then to get that value out.

The tire made cheaply to sell at a low price, and sold without service behind it, cannot possibly meet these specifications.

It cannot deliver you the low final cost which is the only true economy.

Instead of building tires as cheaply as it can, Goodyear builds them as good as it can, putting into them all possible value.

Goodyear is not content, however, to stop there. Through Goodyear Dealers a sincere effort is made to help Goodyear users get out of these tires all the value the factory here in Los Angeles has built in.

As a result, Goodyear users enjoy from Goodyear Tires not only greater tire satisfaction and less tire trouble, but lower final cost.

The public has learned, over the past few years, the advantages of Goodyear Tires and the service behind them.

As a consequence, more people ride on Goodyear Tires today than on any other kind.

This would not be true if Goodyear Tires did not offer definite superiorities in point of cost and performance.

The Goodyear Service Station Dealers here in Los Angeles will be glad to show you how to get greater mileage and greater economy from your tires.

A TREAT FOR TENNIS FANS

Champs to Appear on Local Courts Next Month

Mrs. Bundy, Mary Browne Also on Program

Greatest Net Exhibition in History of South

Definite arrangements were completed last night by Nat Browne for the appearance of world's champion William T. Tilden II, William Johnston, Vincent Richards, and Lawrence Rice on the courts of the Los Angeles Tennis Club in a series of tennis matches to take place May 30 and June 1. Never before has such an array of stars visited Southern California, and local fans will undoubtedly crowd the stands at the L.A.T.C. to their capacity.

Tilden has been champion of the world for the last two years, and a member of the United States Davis Cup team for the same length of time. Johnston has held the national singles and doubles titles at various times, and was a member of the 1931 Davis Cup team, while Richards has only recently scored several victories over the veteran Tilden. Rice was rated as Number 2 in rankings of the United States tennis players last season.

In addition to a number of singles and doubles matches between these four players, Mrs. May Sutton Bundy and Miss Mary Browne, both of whom were many times national champions, will appear on the program. Miss Browne and Johnston, national mixed doubles titleholders, will meet Mrs. Bundy and Tilden.

Johnston will probably play Richards a singles exhibition on Sunday, May 20, and on Monday Tilden and Johnston will play. Great interest will center in the meeting of Tilden and Johnston as these two great players have about an equal number of wins over each other. From Los Angeles Tilden, Richards and Rice will go to San Francisco, where the following week-end they will engage in the annual East-versus-West matches.

GATES TIRE

The Tire with the Wider and Thicker Tread

There's Another Side To It

Nearly every tire user you understand that a wider, thicker tread, having more rubber in it, wears longer and provides a fabric better.

There's another, strictly reason for this wider tread.

It gives the Gates Super-Tire a broader road base which to bear its load means less bending of the wall—longer life for the tire. Naturally, more miles.

They're Vivacious!

They are a good smoke not dried out, you know rolled right—not too tight not too loose—they're lively—vivacious.

TEN-PIN TEAMS GET IN SHAPE

Bowlers Prepare for Title
Event This Month

Faby Fords Face Gallia Five
Tomorrow Night

Local Squads Invade An-
heim Bowling Alleys

BY ED O'MALLEY

As the big drama in the Pa-
cific Coast Bowling Congress
scheduled for the 29th inst. ap-
proaches, the alley cracks are fur-
nishing their game to a point of
high excitement. Team men have
in daily practice at the various
local alleys, rolling up unusual
averages.

It is being the question that
all the Los Angeles stars will be
on their practice during the tour-
nament the 29th inst. to May 10,
and some great scores can reason-
ably be looked forward to.

Several of our best men have
gone stale through overzealous
practice and are taking a salutary
layoff. This recess should send
them into the tournament with an ad-
vanced freshness that is sure to make
them swing the ball for a prelie-
wood-getter.

THE ANHEIM TOURNEY
The Anaheim tourney which be-
gan last night and which will last
until next Friday has enlisted the
entrance of a number of our lead-
ing teams. Among those that will
contest for the four prizes are
Joe's Cafe, Harris & Frank, Brun-
swick, Tires, Leitch, Conner, Con-
pany, Majestic Dance Pavilion and
the Hammond Lumber Company.

A special match game shall be
played on for tomorrow night at the Angu-
lus Alley between the Faby Fords
and the Gallia Five. The Gallias
are about the newest thing
in this neck of the woods in the
alley bowling line and have come
to be looked upon as almost in-
vincible. The Faby Fords, how-
ever, have a formidable outfit and
may give the Southern California
Champions a red-hot tilt before
they leave their colors.

FOR FAIR SEX
On the same night at the An-
gelus Alley, the women bowlers
will get into the limelight. The
teams of Mrs. Meador and Mrs.
Humphreys will clash in a three-
game tilt and here is where the
pins should cut up all kinds of
collecting pranks. Mrs. Humphreys,
whose maiden name is Bertie Kern,
is the acknowledged nonpareil of
all woman bowlers. She has won
the championship in every tourna-
ment she has contested in and still
remains in a class by herself.

Mrs. Humphreys is about 27
years old and in all her contests
brings a fund of youthful enthu-
siasm into her efforts that is in-
vincible. She rolls like a man,
using a cross ball to the 1-3
pocket, and she averages a medium-
fast mineralite and her pocket ball
usually gets a full cord of wood.

AT VENICE
At Venice tomorrow night there
will be a seventeen-team, all-day
tournament in which the best quin-
sets in Southern California will be
seen in action. Long Beach will
be represented by three squads and
Longheim will have a finger in
the pie.

Undoubtedly the most promising
young bowler among the local en-
thusiasts is Mrs. Mildred Hopping,
wife of Harry Hopping, the king
of all southwestern ten-pin babies.
Mrs. Hopping is the youngest
woman bowler at the Angu-
lus Alley and is rapidly developing
remarkable talent. Her improvement
seems steady and it is the con-
sensus of expert opinion that she
is in a fair way to become the
woman champion in the near fu-
ture.

on his baton racers to win the re-
lay. Handerson, MacDonald, Hes-
derson and Saxby may do the
trick, though they will have to
make under fifty-one seconds in
each lap of the event to beat Tem-
pleton's combination of William-
son, Clark, Rudolph and Judah, who
did 2:34 4-8 the last time they ran
the distance. Barring sickness and
accident, the athletes should regis-
ter very much as outlined above.
Of course, there will be dope up-
sets, but those usually come as
much on one side as the other, and
neither team should have more
than a five-point lead when the re-
lay teams are called for. The bat-
on carriers to determine the meet.

Oildag's efficiency lies in the Colloidal Graphite which it
contains; a new form of graphite, that has the power of com-
bining with metal surfaces, forming an amalgam of wonderful
durability as close grained and frictionless as polished glass.

Dr. Edward G. Acheson, the genius of the electric furnace,
produced Colloidal Graphite and is the man behind Oildag.

Fill your engine with Oildag. Daily you will notice improve-
ment in its pulling power and in its dash. After 2,000 miles,
with the "graphoid" surfaces thoroughly established, your
engine is so free from friction that it could be run for hours
without a drop of liquid lubricant, if your crank case were
accidentally drained, and no harm would result.

Telephone any of the distributors for nearest service station;
or look for the big green and yellow OILDAG sign that
marks our dealers. Fill your engine today—take a can
home. Write for literature.

A can of OILDAG in Your Garage cures the "quart
of oil" habit and gives you an improved progressive
lubricating policy.

UNION CHARGES DENIED

Secretary Mellon Calls for Proof That Country is Flooded With Counterfeit Notes.

(BY A. P. NIGHT WIRE.)
WASHINGTON, April 17.—Secretary Mellon today called upon the Plate Printer, official organ of the Plate Printer Union Employees at the Bureau of Engraving and Printing, to furnish him immediately with any evidence upon which that publication had based its statements that the country was flooded with millions of counterfeit bank notes, bonds, War Savings and other stamps, war bonds and coupons. Any such evidence, he added, would be investigated at once.

The Plate Printer, recently published an article criticizing what it declared was a flood of counterfeit notes in connection with the recent reorganization of the bureau by President Harding, involving the removal of Director James L. Wilmeth and other officials.

The report of the special committee which has made an inventory of the stock of the bureau probably will be completed this week, according to high Treasury officials, who, however, did not indicate whether the report would be made public by Mellon or would be sent to President Harding.

The situation at the bureau was discussed today at a conference between President Harding and Chairman McFadden of the House Banking and Currency Committee. McFadden said that very good progress was being made on the check-up of the bureau.

Although brief details of the proposed pooling of the oil lands of the Transcontinental Petroleum Company, subsidiary of the Standard Oil Company, the Texas Company, and its subsidiary, the Houston Petroleum Company, the Mexican Sinclair Oil Corporation, and the Atlantic Lobo Oil Company, including the Cortes Oil Company and the American Petroleum Company, have been given in recent authoritative public announcements, the magnitude of the project has not come to light.

It is stated that these five oil interests, which represent a capital and investment of upwards of \$1,000,000,000, have progressed with their merging plans to the extent that the organization of an exploration company is now practically completed. This company will be effect a consolidation of all the five American oil interests, so far as their holdings in the Gulf Coast region of Mexico, extending from a point a few miles below the Tuxpan River to the Rio Grande, is concerned. It is stated that the Mexican Gulf Oil Company and the International Petroleum Company have been invited to join the combine and that they probably will do so.

TWO MILLION ACRES
The pool so far as made up embraces approximately 2,000,000 acres of proved and potential oil producing lands. Further exploration may increase this to many times over, inasmuch as the companies have leases covering

approximately 20,000,000 acres in Northeastern Mexico, it is asserted. The program for development in event the plans are approved by President Harding, call for an expenditure of many millions of dollars. The improvements will not only consist in establishing oil camps, but in constructing hundreds of miles of modern highways through the wilderness, the laying of pipe lines, building of telephone and telegraph lines and various other facilities necessary to carry on the oil industry on a big scale.

The announcement is made here that the representatives of the several American oil companies which are interested in the combination project, will hold a conference with President Harding and the Minister of Finance De la Huerta in this city April 24, just prior to the departure of the latter for New York, where he is to confer with a syndicate of American and European bankers.

LEGAL QUESTIONS INVOLVED
On the occasion of his recent visit here Edward L. Doherty, head of the Mexican Petroleum Company, held a preliminary conference with President Harding at which the proposed combine was discussed. It is stated that there are certain legal questions which are to be considered before the formal consent of the government is given to the consolidation or pooling of these oil holdings in the representations which have so far been made to the government by the several companies it is explained that the chief purpose of the proposed combine is to conserve the oil supply in Mexico and to prevent the ruthless and often costly exploitation of oil pools because of the competition which has heretofore existed between the various companies.

BURLESQUE ALMOST GOT HIS BOOTLEGGER
WASHINGTON, April 17.—Washington has a prohibition enforcement agent whose name is Burlesque—R. J. Burlesque. At least it did have such a man until yesterday. Where he is today no one seems to know.

Yesterday, however, Burlesque met a bootlegger by appointment with a view to purchasing a bottle of liquor. When the bootlegger produced the bottle, Mr. Burlesque told him he was under arrest. Thereupon the outraged bootlegger turned the bottle into a weapon and hit Mr. Burlesque on the head. Somewhat groggy, but not out, Burlesque drew a revolver and gave the bootlegger a merry chase several times around a waiting automobile.

Suddenly the bootlegger turned on his pursuer. They clinched. Mr. Burlesque, weapon in hand, fell to the pavement. A police man, awakened by the Sunday afternoon disturbance, rushed to the scene, seeing the revolver in Mr. Burlesque's hand, the policeman promptly arrested him. Before Mr. Burlesque could establish his identity to the satisfaction of the officer the bootlegger had vanished.

Maybe, thinks Prohibition Commissioner Haynes, Shakespeare was all wrong about "What's in a name."

EXAMINER TAKES CHARGE OF BANK
PORTLAND (Or.) April 17.—The State Bank of Portland, which failed two months ago, was taken charge of by State Bank Examiner Frank C. Brownell today, as a result of efforts by the bank's officers to formulate workable plans for its reopening within the sixty days period prescribed by law.

Mr. Brownell said steps to liquidate the bank's assets would be taken unless a final effort by a depositor committee to save the bank shall result favorably by May 1.

"I believe depositors will receive 15 cents on the dollar," he said.

WILL DRAG ESTUARY
OAKLAND, April 17.—The police today abandoned hope of finding Thomas Boddy, 40 years old, his wife, and Helen Liskie, aged 16, a mechanic, who were reported missing after the overturning yesterday of a flat-bottom skiff, which resulted in the drowning of Henry Johnson and wife. The Oakland estuary, where the party was last seen, is to be dragged in the hope of finding the bodies of the Boddy and Liskie.

NAVAL OIL POLICY
WASHINGTON, April 17.—Confidence that the policy of the Navy and Interior departments for development of oil lands in naval reserve No. 3, known as the Teapot dome of Wyoming, would, when matured, result in the removal of many of the objections recently raised was expressed today by Assistant Secretary Finley of the Interior Department in a letter to Representative Mondell, Republican, of Wyoming.

THREATENED LIFE OF DRY WORKER
NEWSPAPER MAN IS HELD FOR TRIAL; DIDN'T MEAN IT, HE SAYS
(BY A. P. NIGHT WIRE.)
NEW YORK, April 17.—John L. Sutherland, a newspaper man, was held in \$10,000 bail for a higher court today when William H. Anderson, State superintendent of the Antislavery League, had him arrested on a charge of writing a letter threatening the prohibition worker's life.

Sutherland admitted he wrote the letter to Anderson, but said he had no intention of fulfilling the threat of death. The letter read: "If your words and actions henceforth are not silent, and if you do not take your place quietly in the great body of American citizenship, we mean to kill you without the slightest compunction."

Magistrate Simpson, in ruling bail, said he wanted to protect Anderson because he believed Sutherland was suffering from a "temporary aberration." Sutherland, who was said to have suffered injuries during the war, was not able to furnish bond.

PLAN TO RELIEVE BURDEN ON MAILS
(BY A. P. NIGHT WIRE.)
WASHINGTON, April 17.—Newspapers and magazines under a bill passed today by the House, would be permitted to send out single sheets to advertisers or their agents as proof of an advertisement at the same rate of postage applicable to advertising portions of publications entered as second-class matter. The measure now goes to the Senate.

The postoffice committee in reporting the bill said it would result in great saving of paper inasmuch as advertising now receives a complete copy of the newspaper or magazine, and that the burden on the mails would be lighter.

REFUSES TO RETURN DEPOSIT OF FORD
FEDERAL JUDGE DIRECTS AUTO MAN TO SHOW FACTS OF SETTLEMENT
(BY A. P. NIGHT WIRE.)
DETROIT, April 17.—Petition of Henry Ford for the return of part of the \$2,000,000 deposited by him with the Federal court here in connection with the improvement of River Rouge, which the government undertook at his initiation, was denied today by Judge Tuttle.

The sum was deposited with assurance that property owners along the river where the Ford blast furnaces are located, would be compensated for property damage in requesting return of part of the deposit, counsel for Mr. Ford asserted he already had settled with many of the abutting owners. The court held Mr. Ford had no right to make private settlements as the condemnation proceedings concerned the property owners and the government alone. Judge Tuttle directed the Ford interests to show just what settlements had been made.

PLAN MERGER IN MEXICO

Two Million Acres Oil Land Is Embraced in Combine Now Being Worked Out

(SPECIAL CORRESPONDENCE.)
MEXICO CITY (Mexico) April 18.—An American oil combine of gigantic size will be formed to operate in Mexico, provided the proposition meets with the official approval of President Obregon.

Although brief details of the proposed pooling of the oil lands of the Transcontinental Petroleum Company, subsidiary of the Standard Oil Company, the Texas Company, and its subsidiary, the Houston Petroleum Company, the Mexican Sinclair Oil Corporation, and the Atlantic Lobo Oil Company, including the Cortes Oil Company and the American Petroleum Company, have been given in recent authoritative public announcements, the magnitude of the project has not come to light.

FIND CASH HIDDEN IN QUEER PLACES
MAN BURIED AT SEA A GENIUS AT FINDING HIDING PLACES
(SPECIAL CORRESPONDENCE.)
NEW YORK, April 17.—Wassyl Hanuszy, a third-class passenger on the United States Line steamship Potomac from Danzig, who died from pneumonia on the vessel's westbound trip, had genius for concealing his money. Having emigrated from Hungary to the United States several years ago, Hanuszy was returning from a visit to his old home. He was buried in mid-Atlantic and, in accordance with maritime custom, an inventory of his effects was made by the chief officer, the purser and two fellow-passengers.

A wallet in a coat pocket contained \$100. A dollar bill was discovered sewed in the lining of a worn vest, and a minute search for hidden funds followed. A stale loaf of bread which Hanuszy put under his pillow each night was found to contain \$100 in \$10 and \$20 bills, which had been baked in the homestead loaf. Wrapped in tin foil and immersed in a jar of jam was \$250 in \$5 and \$10 bills. There was \$25 in letters, \$25 in miscellaneous bills under the inner sole of one shoe and two \$50 bills between the soles of another.

The traveler's effects will be turned over to his heirs in his country if they can be found. There was no address or clue to his ultimate destination found among his papers.

MANAGEMENT OF ROADS BLAMED

Labor Costs of Operation Are Too High

Expert for Workers Gives His Views

Rate Rise Would Not End Troubles

WASHINGTON, April 17.—Admitting that labor costs of operation of the railroads are too high, W. J. Lauck, testifying today before the Senate Interstate Commerce Committee, as consulting economist of the railway employees' department of the American Federation of Labor, declared that this excessive cost was not due to unreasonable wages, but to delinquencies of railway management.

"Their properties are depleted," he said, "their efficiency is seriously impaired; their credit is undermined; their profits are dwindling."

"It is hopeless to ask for higher rates, because the traffic cannot stand higher rates, and caught in this impasse, the railroads are themselves between the horns of government control or bankruptcy."

CITES THE REASON
"This situation has largely arisen because the railroads have been dominated by men who know how to manipulate stocks and bonds rather than by men who know how to carry on the service of transportation on the basis of a maximum of load for a minimum of expense."

Organized labor, Mr. Lauck declared, recognized that freight rates and passenger fares might be high, but did not concede that wages paid to employees were responsible.

"We acknowledge," he said, "that labor costs of operation of the railroads are excessive, but we wish to take this opportunity of showing that this is due to the delinquencies of railway management and policy, and not to unreasonable wages or working standards or inefficiencies of railway employees."

WAGES AND COSTS
"We will even admit that too much has been paid for labor at a whole, and that while the individual employee's rates may be high, but not sufficient, labor costs of operation have been too great."

"This has not been due, however, to any lack of productive efficiency of railway workers, but to the inadequate and impaired facilities of the railroads, which are the result of the policy of the railroads to be a generation behind the commercial and industrial requirements of the nation."

Lauck explained that the railway workers want to clearly understand that they do not bring charges of wastefulness and extravagance against the public, but are struggling under a handicap they cannot lift. The association is their strikers are directed against those who made and directed the financial policy of the railroads in years past, and who today are endeavoring to shift the burden of the financial rehabilitation of the railroads.

AUSTRIAN IS ALLOWED TO KEEP CITIZENSHIP

FORMER CONSUL AT PORTLAND NOT TO LOSE PAPERS, SAYS COURT

PORTLAND (Or.) April 17.—Joseph Woerdle, former Austrian consul here, will retain his American citizenship as a result of a decision announced today by Federal Judge Bean in the proceedings instituted by the government for cancellation on the ground that Woerdle had permitted Hans Boehm, a German spy, to use his passport before the United States entered the world war.

"There is no evidence to show that Woerdle made fraudulent reservation of fidelity to America when he took out his naturalization papers," said Judge Bean. "The same may apply to the private letters he wrote to his relatives abroad. These letters were written before the United States entered the war, and while his native land was hard pressed by its enemies."

It was a matter of common knowledge, the judge said, that before the United States entered the war many naturalized citizens sympathized with their mother land.

REFUSES TO REVIEW CALIFORNIAN CASE

WASHINGTON, April 17.—The Supreme Court announced today it would not review the decisions of the Federal courts in California convicting Peter J. Camou of violating the Narcotics Act by having in his possession heroin-hydrochloride. The District Court for Northern California, and the Circuit Court of Appeals held the evidence sufficient for conviction, contending the drug were in trunks of guests of the hotel and he never had possession of them or knowledge of the contents of the trunks.

Pearl Diving Season Shortened
(BY CABLE AND ASSOCIATED PRESS.)
PAPETE (Tahiti) April 16.—Tahiti's annual pearl-diving season probably will be shortened this year because all of the pearls taken in 1920 and 1921 have not yet been marketed. It is estimated that about five million francs are tied up in unsold shells and that few pearls will be sought until the money is released.

SIGNALMEN FIGHT WAGE REDUCTION

ARE NOW GETTING LESS THAN MEN OUTSIDE RAILWAYS. OFFICER ASSERTS

CHICAGO, April 17.—Presenting statistics intended to prove that signalmen employed by railroads were receiving less than men employed in similar lines of work in the building trades, David Holt, president of the Brotherhood of Signalmen, today before the United States Railroad Labor Board pointed out that men in the organization he represented were receiving 12 cents an hour less than those outside railroad employment. Statistics were gathered from 121 cities in the country. The signalmen are getting an average of 42 cents an hour, he pointed out, and electricians 47 cents. At present mechanics employed in the signal division are receiving 77 cents per hour.

With those figures he vigorously declared that the signalmen should not be subjected to the proposed 10 per cent decrease asked by the railroads.

WOULD STANDARDIZE PACKING OF OLIVES

FRANK SIMMONS, LOS ANGELES, Elected President of Association

SAN FRANCISCO, April 17.—California olives are to be put up by all packers in four standard sizes and shapes of cans in order to insure uniformity and make for wider distribution of the product, it was decided today by the California Olive Association, composed largely of packers. Its annual convention, which was known as the Number 10 packers' can, the tall olive can, and the 5-ounce butter.

A committee from the group of growers who are endeavoring to form a growers' co-operative marketing association, promised their co-operation in the promotion and publicity plans of the packers' association, and agreed to contribute if the association is formed. These plans call for spreading the popularity of California olives in the East.

Frank Simmons of Los Angeles was elected president. Henri Burriel, of San Francisco, vice-president, and the following were chosen members of the executive committee: J. V. E. Titus, Riverside; Allan Cutler, Los Angeles; B. B. Meek, Groveland, and W. W. Woodson, Corning.

HUGS HIS MOTHER; BREAKS HER RIBS

HOLLYWOOD MAN JUST BIG LOVING BOY, SAYS INJURED PARENT

SAN FRANCISCO, April 17.—In giving his mother a big, loving hug a few days ago, Lewis Yeoman, representative of a druggists' supply house, broke two of her ribs. Mrs. L. H. Yeoman, the lady in the case, today warned the girls of Hollywood, Cal., where Lewis lives, not to ask for any demonstrations as to just how he did it.

"I cannot imagine any more pleasant way to have one's ribs broken," Mrs. Yeoman said today in explaining her son's act. "Lewis is a big loving boy, and I was so glad to see him that I did not mind the experience so much. He is coming back again in a couple of weeks and says he is going to hug me again, but not nearly so hard."

FORGERY CHARGED AGAINST BANKER

KANSAS CITY (Mo.) April 17.—Rev. C. Douglas, secretary and manager of the Jackson County Savings and Loan Association, from the funds of which he is alleged to have misappropriated approximately \$145,000, was charged with forgery in three cases by the County Prosecutor today.

The minimum penalty for first-degree forgery in Missouri is ten years in the penitentiary.

Auction Sales

To Be Conducted by Members of Los Angeles Auctioneers Association. The Times is the Official Exclusive Newspaper Advertising Medium for the Association.

AUCTION Board of Trade Sale Auto Accessories, Tow Rope, Oil, Greases. Wed. April 19th, at 10 a.m. at 533 So. L. A. St. J. J. Sugarman, Auctioneer.

DIPHTHERIA TEST IS HARD ON PIGS

NEW DISCOVERY SUPPOSED TO SHOW SUSCEPTIBILITY OF CHILDREN

SACRAMENTO, April 17.—Discovery of a new method for testing the susceptibility to or immunity of children from diphtheria, which is tough on guinea pigs but is declared to be of great importance to the medical profession, has been reported to the State Board of Health by Dr. Wilfred H. Kellogg, director of the state hygienic laboratory at Berkeley.

The new test, as described by Dr. Kellogg, consists of mixing a small quantity of blood taken from the suspected child, with diphtheria toxin which is injected into the guinea pig. The pig from whom the blood was taken is susceptible and requires vaccination. If the "pig" doesn't react there is no suspicion of the disease in the child.

Four days or more are required to determine the susceptibility or immunity of a child under the old method, Dr. Kellogg said.

DECLARED JAPAN IS NOT OVERCROWDED

OAKLAND, April 17.—There is still plenty of room in Japan for the Japanese, and there is no necessity of their emigration to California, Joseph A. Garry, secretary of the Japanese Exclusion League of California, told the opening session of the forty-fifth annual grand parlor of Native Sons of the Golden West today.

Garry advocated legislation similar to the Chinese Exclusion Act to restrain further Japanese immigration. There are 109,000 Japanese in California, he said, and the births were 719 in 1910 as against 4771 in 1921. In the decade between those years 23,000 Japanese were born in California, he said.

Nominations for officers and the selection of the convention city, which is expected to be Santa Barbara, will feature the convention tomorrow.

LINCOLN MOTOR SUIT IS FILED IN DETROIT

DETROIT, April 17.—Suit was filed by the government in United States District Court here today against the Detroit Trust Company, as receivers for the Lincoln Motor Company, which is alleged to have misappropriated the amount claimed to have been overpaid the motor company on the ground it still has control of the motor company's finances and is winding up its affairs.

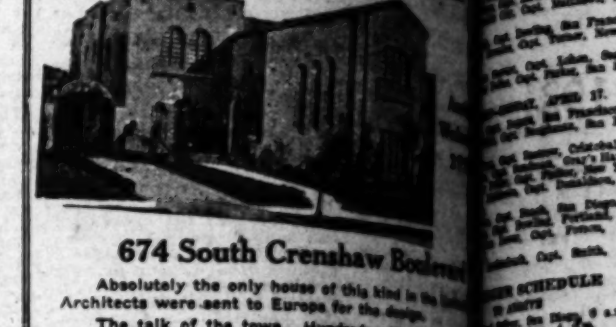

The Lincoln Motor Company was named defendant in the charges that the Department of Justice had failed to press suits growing out of the war-time contracts.

DAILY TRADE TALK

Southland Bankers Hold Record-Breaking Meeting and Listen to Noted Speakers

BY CHAPIN HALL

The meeting of Group No. 6, California Bankers' Association, held in the Alexandria proved a record breaker so far as attendance was concerned. At the afternoon round-table discussion 300 representative bankers from Los Angeles, Ventura and Inyo counties were present, and listened to the discussion which had to do with banking problems, and more especially with their relation to the farmer. The suggestion that each bank establish a department of agriculture through which these problems might be met and contact established with the farmer was made. A. E. Hodgson, county farm adviser, contributed a paper on credit. H. D. Joy talked about system in connection with individual accounts. Hiram J. Wamold led a discussion of the so-called lawyer's bill, and George E. Farrand, one of co-operative market.

At the dinner meeting the principal speakers were John Moody and George M. Reynolds. Mr. Moody is an economist and Mr. Reynolds a practical banker. Those who talk with Mr. Reynolds shortly after he reached Los Angeles three months ago were much impressed by the new note of optimism which has crept into his public utterances.

"We have passed the danger point," was the keynote of his address, and while he warned that it would take time to get back to a normal basis, he asserted his belief that we have passed through the red-link period and back on the blue side of the ledger once more.

Mr. Reynolds paid considerable attention to the farm situation, and agreed that the banks had done all that they could be reasonably expected to do, and in some instances a great deal more, to help the soil tiller over the rough places he has encountered during the past two years.

"Give the railroad the help they need to put their houses in order," he said, and added that regardless of European conditions our comeback will be largely dependent upon our own resources.

"We must help Europe to help itself," he said. The problem of the future, in his opinion, is that of foreign exchange, and in this connection the piling up of a great gold supply in this country brings in its train grave responsibilities which will enlist the thoughtful contemplation of every banker.

In forecasting the probable trend of business during the next year or two, Mr. Moody asserted that, in his opinion, we are on the threshold of a period of genuine, healthy prosperity such as we have not known since long before the war.

A portion of Moody's constructive talk dealt with his recent tour of Europe and which served to disabuse the minds of many members of the group of the fear that the Old World is on the eve of collapse. On the contrary, the speaker pointed out that Europe, excepting Russia, is further along the road to normalcy than we are because the people have learned that the way back is the way of work and they have gone to work.

In 1919, he said, 75,000,000 people were dependent upon relief organizations; in 1931, only about 2,000,000 remained the objects of charitable solicitation. Mr. Moody disagrees with those who anticipate a cataclysm in Germany. There is no inflation in that country, he said, except in the mark, and they will stop printing marks as soon as there is no longer a foreign market for them. There will be no crash there because the mark is almost at the vanishing point and soon there will be no place left for it to crash. Repudiation is actually going on now, for repudiation comes when a circulating medium no longer circulates, a condition which will be reached in Germany within a few months. Then a stable currency system will be established and the inherent frugality and industry of the country will begin to manifest itself. Abroad, he concluded, are encouraging and constructive rather than discouraging and destructive.

Ralph B. Hardacre, vice-president of the Security Trust and Savings Bank of Los Angeles, is chairman of the group, and presided at both sessions. Five hundred were present at the cabaret banquet.

BUSINESS NEWS

Los Angeles Merchants Enjoy Big Easter Trade; Municipal Bond Market Active

Los Angeles department stores have just finished an exceptionally prosperous Easter season, according to Louis Rivers, merchandising manager for Humberger's. The cool weather would, in ordinary circumstances, have acted as a trade depressant, but business was undiminished in the face of this adverse condition. The buying power of the Los Angeles public is gaining in strength, according to the evidence shown by larger totals in the sales sheets.

One of the effects of the cool weather has been, not to cut down the demand, but to shift it into other channels. Cotton goods, suits and blouses have generally suffered on account of the weather, while sports wear and dresses have enjoyed a greater inquiry than normal.

Household goods continue to be in heavy demand throughout the country, although there has been somewhat of a decline in local purchasing. Word comes from the Michigan furniture manufacturers that they are forced to allot only 75 per cent of their present orders on account of the sudden influx of buyers. Causes for this demand are found in the greatly increased number of new dwellings recently erected and in the fact that furniture buying was sharply curtailed during the past year and is only now recovering for the time lost.

The most striking phase of Los Angeles retail trade at present, according to Mr. Rivers, is found in the steadily increasing volume of sales of cheaper good through the basement departments of the large stores. Entire lines are offered and sold out in the same day in these departments and it is this rapid turnover and the power of the Los Angeles public to quickly absorb the popularly priced goods that have enabled the stores to cut prices to a minimum. The local basement store furnishes the east-

ern manufacturer an easy and reliable outlet for the lines with which he is overstocked. Many Los Angeles buyers are now in the market for the summer and fall trade. Their reports indicate that jobbers' prices have been fairly stable basic. They also report that retail dry goods distribution in the Eastern States is undisturbed and seasonal stock for ahead. The tendency to still appear is need only to be observed in the retail trade. However, frozen credits are showing the Sixth Federal Reserve position in as sound as could be hoped for. In the federal districts farmers are preparing the ground for spring crops, which will be more diversified this year than ever before. The larger part of the produce will be disposed of through the co-operative marketing bureau.

Building in Atlanta since the first of the year already entails a proposed expenditure of \$5,457,000, which is a record for this city for all time.

ST. LOUIS (Mo.) April 17.—Investment is manifest in construction work and in manufacturing in this district, yet it is accompanied by conservation in the wholesale and retail merchandise fields. The growing vigor of manufacturing is attributed to the increased buying power of the farmers and the building and repair of equipment and improvement of railroads and roadbeds by the railroads.

Investment in real estate and building projects. Realty sales are increasing and many plans for mercantile buildings and apartment houses are under way. In addition a greater disposition toward expansion on the part of the industrial corporations than has been observed in this part of the United States for some time. This industrial activity is expected by manufacturers and wholesalers and retail merchants are proceeding on cautious lines. They are liquidating their current obligations promptly, for they are buying cautiously and settlements keep pace with sales.

DETROIT, April 17.—Retail business is well into its upward

THE COUNTRY OVER

[EXCLUSIVE DISPATCH.]

CLEVELAND (O.) April 17.—Steel mills, motor accessory plants and automobile factories in this district report steadily increasing operations as the result of the growing demand for automobiles. Steel men, however, are anxious over the coal strike situation and fear present business expansion may be checked as a result of fuel shortage.

Operations at the Chandler and Cleveland automobile plants are reported on the upturn, and while officials decline to give definite figures, the fact that the Fisher Body Company of Ohio, which supplies inclined bodies for the Cleveland, Chandler and Chevrolet cars, is working to capacity, is evidence that these local companies are building a large number of cars.

The Fisher Body Company, which has 1,000,000 square feet of floor space in its own plant, has just leased factory of the Briggs Body Company to take care of this rush of business. The Stearns Automobile Company is working to capacity on its parts and has more orders on its books than at this time last year.

SEATTLE (Wash.) April 17.—The split separating had thus far from good in the lumber industry has been crossed apparently safely in the Pacific Northwest. Washington and Oregon mills today are operating at less than 6 per cent over normal production. Nonunion coal mines in Western Washington are producing 2700 tons of coal a day and are within 50 per cent of normal output, employing 1300 men. About 2800 union men have been out since last year.

Clear, warm weather in the last week has stimulated retail merchandising. Department stores are showing more activity than for several years past.

Weather conditions have been slow, reflecting the fact that the public buying trend is toward the suburban, rather than the city. The suburban fur trade is flourishing with prices strong.

KANSAS CITY (Mo.) April 17.—Fear of damage to crops from cold weather and floods has been relieved by a return of clear, warm weather in this district. Swollen streams are subsiding and the snowstorm in Western Kansas earlier did not reach eastward to the fruit belt.

While conditions are on the up-grade in this territory, actual production is growing steadily. Retailers are complaining over the scarcity of the Easter trade. This has to be the weather conditions. Prospects for fruit crops in the Valley have not been so promising for several seasons. The wheat acreage in Kansas this year will be far less than usual.

ATLANTA (Ga.) April 17.—Distinction and jobbers note a disinclination of manufacturers to stock far ahead. The tendency to still appear is need only to be observed in the retail trade. However, frozen credits are showing the Sixth Federal Reserve position in as sound as could be hoped for. In the federal districts farmers are preparing the ground for spring crops, which will be more diversified this year than ever before. The larger part of the produce will be disposed of through the co-operative marketing bureau.

Building in Atlanta since the first of the year already entails a proposed expenditure of \$5,457,000, which is a record for this city for all time.

New Issues

\$850,000

Washington Pulp & Paper Corporation

First Mortgage Sinking Fund Gold Bonds

6 1/2% Series of 1941

Non-Callable Prior to December 1, 1931

Dated December 1, 1921; due December 1, 1941. Principal and semi-annual interest (December 1 and June 1) payable at The Bank of California, N. A., San Francisco. Coupon Bonds in denominations of \$1000 and \$500. Redeemable in whole or in part on December 1, 1931, at 105 and annual interest thereafter at 1/2 of 1% less each year. Annual sinking fund payments commence April 23, 1932. Interest paid without deduction for Normal Federal Income Tax, in so far as lawful, not exceeding 2%.

THE BANK OF CALIFORNIA, NATIONAL ASSOCIATION, SAN FRANCISCO, Trustee

Concerning this issue of bonds, the following information is summarized from a letter given us by Mr. John L. Zellerbach, Vice-President of the Corporation.

COMPANY. Business of Company consists in manufacture of newsprint. Ownership of Company is vested largely in Zellerbach Paper Company, and Isadore Zellerbach, M. M. Cohn, M. R. Higgins and J. D. Zellerbach, San Francisco, all of whom are active officers of Zellerbach Paper Company, and E. M. Mills, Seattle. Management of Company is characterized by extensive, practical and successful experience in producing and selling paper and paper products.

PROPERTY. Property consists of about 60 acres of land at Port Angeles, Washington, fronting on deep water, where ocean-going vessels may dock at its own wharves. Manufacturing plant consists of a five-unit 60-ton mechanical pulp mill and paper mill designed and built for two paper machine units (one of which is installed.) together with the usual auxiliary buildings and equipment, all of which is thoroughly modern and in excellent physical condition.

Property is excellently located, having near at hand an unlimited supply of timber, hydro-electricity at low cost, sawmill waste for fuel, rail as well as water transportation, a reliable supply of pure soft water for manufacturing purposes, fresh water pond for logs and plenty of good labor.

PURPOSE OF ISSUE. Proceeds of this issue will be used to provide funds for permanent additions and extensions to fixed properties which will more than double the capacity of the plant.

We offer the above bonds for delivery when, and as if issued by us and subject to approval of Committee of Corporations of State of California. Pending delivery of definite bonds, temporary receipts secured by deposit with Trustee will be presently available for delivery.

MOROSCO GETS MORE THEATERS

Two San Francisco and One Oakland House Are Added to Coast List

Centering his activities on the Pacific Coast, Oliver Morosco yesterday announced the acquisition of new theaters in San Francisco and Oakland, which he will use in addition to his Los Angeles properties for the production of many plays.

Mr. Morosco has come to the conclusion that the West is the place to produce a successful play and he is making all plans accordingly. His production program for the coming year includes nearly a dozen new plays and musical comedies.

The newly acquired theaters are the Century Theater, San Francisco, which he will call the Morosco, and the Liberty Theater, Oakland, which he will call the Morosco. The Century Theater is one of the handsomest theaters in the northern city and will be used largely for new productions. The Liberty Theater is a new building, recently completed, and will be used for the production of many plays.

Refuses to Give Up Fifty Cents; Shot by Bandit

Refusal to donate 50 cents to a gunman caused Benjamin T. Corey to take a trip to the Reformed Church for a bullet wound in his head.

Corey, a flagman 71 years old, was leaving the safety gates at Alameda street when a ruffian dressed man climbed into his tower, drew a gun on him, and demanded:

"Give me 50 cents."

"Don't bother me; I'm busy," Corey replied.

The gunman fired, wounding the old man in the head. When Corey was taken to the hospital, he was found to have a bullet wound in his head.

CADET BREAKS TARGET RECORD

William E. Locke

WILLIAM LOCKE, major of the Dinuba High School cadet battalion, has broken the world's record of the Junior National Rifle Association for consecutive bullseyes which has been held by a Fresno boy since the latter made 253 some time ago.

Using the standard N.R.A. fifty-foot target and a Savage N.R.A. 22 long rifle, Locke shot 644 consecutive bullseyes. The first shot was fired at 12:45 p.m. and at 4:20 p.m. he missed on the six hundred and forty-fifth shot.

Major M. C. Harris of the school faculty will claim the championship for Locke after forwarding the necessary affidavits and the used targets to the State Adjutant-General.

CAN'T STOP OLD HORSE AVALANCHE

Equine Relics of Better Days Threaten to Swamp University Firm

"Oldest horses" received C.O.D. at the farm of the University of California at Davis have been arriving in such numbers that the students are in a dilemma as to what to do with them.

The trouble started, says J. B. Woodford, chairman of the "Bedtime Stories" committee, when the students began to arrive in the state in the summer of 1918. The students brought with them a number of old horses, which they found at the hospital and he will live.

SEEIN' THINGS

Why not share your chuckle with others? When you see something unusual, drop a note about it to the City Editor of The Times. Then we'll all can smile.

CARNIVAL WILL be a Feature at Children's Show

Pun and frolic will hold sway tonight at this week at the Children's Exposition at Exposition Park.

Tomorrow night a masque carnival will be held and scores of prizes to be awarded for the most unique costumes. There will be dancing of all sorts.

CAFÉ MUST PAY FOR WRAPS LOST

Responsible When Articles Are Taken from Checkroom, Judge Rules

When a person leaves a hat, coat or other article in a checking place in a cafe and pays for the service, he is entitled to damages if the articles are lost, according to a decision yesterday by Justice Baird.

SENTENCED TO PRISON

In U. S. District Judge Bledsoe's court yesterday, Jose Santa Maria, who pleaded guilty to violation of the Harrison narcotic law, was given thirty months in the Federal penitentiary. The narcotic enforcement officers said he is a new man in the dope game.

RADIATE SONGS TO SOUTHWEST

Singers Broadcast from "The Times" Station

Reports of "Listening in" Stations Received

Public Eager to Get Free Receiving Sets

The Times radio broadcasting station program today begins at 12:30 p.m. with news bulletins and music, vocal and instrumental. This program lasts until 1:30.

At 2:30 The Times will be "on the air" with the latest news of the city and reports on affairs from world points until 4 o'clock.

Ethel Jenks, soprano, who is singing at the Long Beach Fashion Show, under direction of Peggy Hamilton, The Times fashion editor, will sing in the evening program, which lasts from 6:45 until 7:30. W. M. Garland, Los Angeles actor, will sing in the evening program, which lasts from 7:30 until 8:30.

EXONERATED ON CHARGE OF WOMAN

Dr. Bishop Freed After Special Report is Made to District Attorney

After statements were made late last night in Justice Hanby's court by Dep. Dist. Atty. Joos that Mrs. H. M. Ballard, a young matron, who accused Dr. Frank C. Bishop, well-known local physician, and alienist, of an offense against her, was subject to epileptic fits, the charge against the physician was dismissed.

Divorce Court Figures

Mrs. Grace M. Nelson, who has been twice married but in each instance to the same man, resented cave-man methods in real life. On the screen it was rather exciting, but when her husband, Jack Claude Nelson, slapped her, struck her and abused her, she could not reconcile the blows with true love.

Expect to Fill Burch Jury Box by End of Week

The jury in Judge Reeve's court which will try Arthur C. Burch, charged with the murder of J. Belmont Kennedy in Beverly Glen last August, may not be completed before the end of the week and another panel may have to be drawn. Yesterday the venire was almost depleted by excusing those not qualified as jurors, those who did not believe in infliction of the death penalty and those who were challenged by counsel.

COUNCIL TO ATTEND MEMORIAL CEREMONY

The City Council yesterday accepted the invitation of the Los Angeles Anti-Vivisection Society to attend ceremonies to be held at Exposition Park on April 27, at 3 p.m., when a tree will be planted in memory of the 243,135 horses attached to the American forces during the World War.

RESENTS .. CAVEMAN .. METHODS

Slapped, Sworn at, Abused—Wife Seeks Divorce.

I'LL RESIGN THURSDAY, SAYS CHIEF OF POLICE

A Declaration Follows Sharp Clash With Commissioner De Coe at Gifford Hearing

"I'm through. I'll resign Thursday morning." This statement was made by Chief of Police Everington immediately after a sensational meeting of the Police Commission at the City Hall late yesterday afternoon, in which the hearing into the dismissals from the department of Capt. W. L. Spellman and Lieut. A. W. Gifford blew up with a loud bang and carried the Chief with it.

SAYS PUBLIC HAS FAILED TO AID HIM

Chief Everington Blames Supporters of Open Town for End of Crusade

After declaring to newspapermen that he would resign Thursday, Chief Everington issued this statement last night:

"The interests that want a wide-open town have decreed that I must go. I predicted that this would happen when I conferred with Mayor Cryer a month ago. 'I have been given until Thursday, in effect to withdraw from my stand in the Gifford-Spellman dismissal, or resign.' I still stand as Chief of Police in Los Angeles as long as the underworld is more powerful politically than the police department. A dishonest man can be Chief just as long as he is not caught."

EXONERATED ON CHARGE OF WOMAN

Dr. Bishop Freed After Special Report is Made to District Attorney

After statements were made late last night in Justice Hanby's court by Dep. Dist. Atty. Joos that Mrs. H. M. Ballard, a young matron, who accused Dr. Frank C. "Bullock's for Lace"
A Slogan Earned by Value and Quality

Bullock's

"ONE O'CLOCK SATURDAYS"
Bullock's closes Saturday at one o'clock

Bullock's

"Bullock's for Kodaks"
A First Floor Service That is Unusually Efficient

At Bullock's 16-Button Milanese Silk Gloves, \$1.65

INTERESTING

—The Corsetto—For many a Modern Maid! For this clever garment is most versatile. It achieves a braiser, a hip girder and a corset in one breath, though it has no boning. It is very light in weight, with a wide band of elastic through the waist. The shorter models are \$2.50 and the longer, \$4.50. Fourth Floor.

"One o'clock Saturdays"
—There's Nothing Like Having one's personal time and energy, and to that end every woman will appreciate the Bullock's Shoe Repair Service. Call Broadway 4800—Shoe Repair Service, and Bullock's will call for, repair and deliver shoes again. Fourth Floor.

"One o'clock Saturdays"
—Do You Like Pictures? And did you know that picture-framing was an art? It is, and it is an art which is practiced at Bullock's as you will find if you have some favorite which you would like framed or reframed. Come and inquire in Bullock's Art Needlework and Gift Store, Bullock's Hill Street Building.

"One o'clock Saturdays"
—Film It—That's the way to perpetuate your good times. Your Kodak writes history for you as you go. Bullock's Kodak Section particularizes its energies in developing, printing, retouching and enlarging in a sincere manner, insuring advantageous treatment for each negative.—First Floor.

"One o'clock Saturdays"
—Bullock's Brassieres Give Long Lines—These are a specialization of Bullock's Corset Section—and the girl or woman who has not taken advantage of the fitting service of Bullock's Corset Section has a very pleasant experience awaiting her in the New Corset Section.—Fourth Floor—Seventh Street Building.

"One o'clock Saturdays"
—Have Your Linoleum Laid With Care—It will save you time and money and will eliminate all possibility of your linoleum ever warping or cracking. Not only this—but the buying of the linoleum requires but a single operation—no waiting for it to stretch. Ask about this Bullock Way of laying linoleum. It will interest you. Rug Section—Sixth Floor.

"One o'clock Saturdays"
—Betty Bolton is Sweet—for Betty, you know is that delicious candy. Take home a pound box of Betty Bolton's Special Chocolate, \$1.25.—Art Needlework and Gift Store—Hill Street Building.

"One o'clock Saturdays"
—The New Butterick Summer Quarterlies
the May Patterns
May Delinquent

Are on sale now at Bullock's.
—Dozens of pretty styles for Gingham, Organdies, Ratines, Linens and Cretonnes for Summer days.
—Don't hesitate a moment—see them at Bullock's Second Floor.

Infants' Hand-Made
Dresses \$2.50

—Exquisite little garments, daintily hand embroidered. Fine tucks and lace trimming at neck and at sleeves. Many of them feature delightfully embroidered yokes.

—Tuesday—Bullock's Infants' Section—Fourth Floor.

Baby Week

—Under the auspices of the Mothers' Educational Center—Plymouth Branch Center, 650 West Twenty-first street—

Program

—Tuesday, April 18:

10 a.m. to 4 p.m.—Examination and scoring of children, pre-school age.
1 p.m. to 4 p.m.—Examination of Vision.
11 a.m.—Story Telling.
12:20 a.m.—Address: "Children's Diet," Dr. Victor E. Stork.
Address: "Training Children," Dr. Maud White.
1 p.m.—Motion Picture—"Children's Open Air Health Camp"—L. A. Tuberculosis Assoc.
1:30 p.m.—Motion Picture—"Through Life's Windows"—with address by Dr. Harry Goodman.
3 p.m.—Address: "What the Day Nurseries Can Do," Miss Hannah Hall, assistant supervisor, Home Economics, L. A. Belcocks.
Address: "The True Function of the Orphanage," Mr. Armond West.
Address: "Human Salvage Work," Dr. Charles Leroy Lawman.
Address: "First Aid for the Child in Trouble," Mrs. E. K. Foster.
Three Groups of Children's Songs—Miss Mildred Fairweather.

Furs succumb to the
Vogue for Color and

Foxes---

dip themselves most effectively in

Platinum
Dyed Blue
Deep Violet

and surprise everyone with prices as low as \$75.00—

—Because they are unusually soft and silky and exceptionally fine quality, a particular group has been chosen to represent Bullock's Fur Section in its Exploitation of Fine Furs.

—There is something intriguing about this trend toward color for Summer Furs—it is not always that the mode is so harmonious with the mood—

—Bullock's chooses expertly and exploits sincerely—with thought upon Value as well as Style—you certainly should not miss this showing of New Foxes—at Bullock's Third Floor.

Imported Pure Linen Pattern Cloths

—To remind you that Bullock's New Linen Room is just as earnestly concerned in the presentation of Fine Linens at attractive prices in its new location as it was when it built its enviable reputation in the location many women remember it in for years—

—500 Pure Linen Pattern Cloths—part of a big shipment of Moravian and Austrian Silver Bleached Linens—bought by Bullock's in Europe under favorable rates of exchange and shipped direct by water to Los Angeles—at lowest transportation rates—

Cloths 51x51 inches, for breakfast use, \$2.75 each
Cloths 63x63 inches, regular sizes, at \$3.75 each
Cloths 70x70 inches, popular large size, \$5.00 each

64 Inch Heavy Pure Linen Silver Bleached Table Damask, \$1.75 yard—70 inches wide at \$1.95 yard.

—Colored Border Cloths and Napkins and Sets from Moravian Manufacturers—all hemmed—for breakfast tea-service and bungalow use.

Cloths 51x51 inches at \$2.75 each—Napkins 16x16 inches at \$4.00 dozen. Sets of 51 inch Cloth and six 16 inch Napkins at \$4.75 set.

Also a Wide Stock of Real Irish Linens at Attractive Prices

—72x72 inch Satin Damask Pattern Cloths, \$6.75.
—22x22 inch Napkins to match at \$7.75 dozen.
—2x2 1/2 yard Satin Damask Pattern Cloths, \$8.75 each.
—73 1/2 x 73 1/2 inch Heavy Double Satin Damask Pattern Cloths, \$10.50 each.
—70 inch fine Irish Linen Satin Damask \$2.00 yard.
—19x35 inch Pure Linen Huck Towels, 50c each! \$5.50 dozen.

—At Bullock's New Linen Room—Second Floor—Seventh Street Building.

—Today will give them another vigorous exploitation—because they deserve it. Just imagine fine Van Raalte Gloves of this character at \$1.65 a pair!

—It is unusual! It could not have been done without factory co-operation and a quantity purchase—

They are very heavy Milanese silk—all 16-button length with two-toned heavily embroidered backs in all the most desirable shades of summer—silver, slate, grey, beaver, mode, fawn, champagne, brown, white—

—They are all new and first quality—sizes 6 1/2 to 8; they should be looked upon in the nature of an opportunity—an unusual effort should be made to allow yourself to share—at \$1.65 a pair—at Bullock's First Floor.

Jersey Silk
Petticoat
Easter Colors
\$6.95

—Quite the most popular style in petticoats at present is the tailored model suitable for suit and street costumes.

—These features for Wednesday—reveal the recent creations of Spring Stylings in

—Plaid Flounces that boast of colorful insets—Others a 3-inch hem with novel pointed turn-back trimming—

—The petticoat is essential for the correct Easter Costumes this season—and among these Jersey Silk Petticoats one is sure to find the petticoat of excellence in Value—Quality—Style and Color—Wednesday—a feature at \$6.95 each.
—Fourth Floor—Seventh Street Bridgeway.

Hip Confiners
\$1.50 to \$5

—Supply the requisite bit of support that many women are depending upon these days to give the figure a willowy, girlish line.

—Bullock's Shows models of various lengths and designs to fit the majority of figures.

Muslin and Lace
Brassieres

—In models suggestive of the camisole effect. They mould the upper part of the figure most gracefully. Featured for Wednesday at 75c in Bullock's New Corset Section—Fourth Floor, Seventh Street Bldg.

600 Men's New
Plain Colored
Soiesette
Shirts at
\$2.50

—are ready to impress you with their desirability for summer wear—

—They present a range of good colors, including gray, light blue, helio, pink, tan as well as all white—with French cuffs—

—Soiesette with collar attached and single cuffs in white and tan only, at \$2.50—
—Soiesette is an excellent material for summer use—it wears well and launders splendidly—many men prefer it to silk—certainly it is economical when it makes such good looking shirts to sell at \$2.50 each—
—sizes 14 to 17 at Bullock's—in the Store for Men—First Floor.

SUMMERY HATS DELIGHTFUL—\$10

—LARGE AND SMALL—AND IN-BETWEEN SHAPES—FABRICATED OF HEMP, OF HAIR BRAID, YEDDA BRAID, MILANS—

—FLOWER TRIMMED IN PROFUSION—SELF-TRIMMED OH—SO ATTRACTIVE—LY WITH MALINE, RIBBON AND BRAID.

—AT \$10.00 EVER SO MANY STYLES AND COLORS AND COLOR COMBINATIONS—THAT NO MATTER WHAT STYLE OR SHAPE OR COLOR YOU DESIRE—THE HAPPINESS OF ITS DISCOVERY IS SURE TO BE FAMED AT BULLOCK'S MILLINERY SECTION—THIRD FLOOR.

Without Charge

—Commencing tomorrow—Tuesday and Thursday of each week—from 2 p.m. to 4 p.m. at the rear of the Book Section—Second Floor—Seventh Street Building—Bullock's will inaugurate a Class of Instruction to teach the making of all kinds of

Ribbon Novelties

—particularly the making of flowers of every variety—as well as the "How" of making Ribbon Bags, Sofa Pillows, Garters, Aprons, Petticoats, Boudoir Caps, etc.

—Miss Bell McCaughy is instructress—and her mastery of the art of Ribbon Novelty Creation is favorably known throughout the Southland.

—This Service is without charge, providing ribbon is purchased at Bullock's Ribbon Section—First Floor.

—Remember—First Class Tuesday—2 p.m. to 4 p.m. Rear of Book Section, Second Floor—Seventh Street Bridgeway.

A Wardrobe Trunk Built to Fear Nothing It May Meet

—during any kind of travel.

—Extra Capacity size—with 14 hangers. Four spacious drawers with locking bar. Durable Shoe Box and Laundry Bag.

—Fitted with the new steel pressure strip to prevent warping—and a corrugated steel runner on the outside of each panel.

\$56.00

—A Bullock Gibraltarized Wardrobe—built of the best of Materials—and All workmanship.

—Bullock's Trunk Store—Entrance on Hill Street.

Black Cobra-Grain Cowhide Suitcase—\$19.95

—Built especially for Women.

—A very neat and attractive Case featuring black Cobra-grain Cowhide over basswood frames.

—A very light and durable piece of hand luggage, neat handle, French edge Case with full length, sewed on leather hinge.

Scientifically Produced

Milk from Holstein Cows

may solve your baby food problems
you. Holstein Cows' Milk will make
a delicate, nervous baby over new, or it
will keep a healthy baby good-natured,
strong and solid-fleshed, because

The most delicate infant can readily di-
gest and assimilate Certified Milk from Hol-
stein Cows. It is perfectly balanced in its fat
and sugar elements. The foremost physicians
of the world have long recommended the lib-
eral use of Holstein Milk.

According to the report made by
Detective Sergeant Herman Cline
and Longuevan, one of the band-
its went to the rear of the house
and gained entrance by repre-
sented himself as a peddler. He
then bound and gagged the maid
and let his accomplices in from the
front.

The second man was armed with
a revolver and a slingshot, and
wore a mask. The two went up-
stairs where Mrs. Nowlin was
sick in bed. They warned her to
make no outcry and threatened her
with their weapons to make her
reveal where her jewels were hid-
den. She was then forced into a
closet, trussed with ropes and
gagged.

The bandits searched the house
thoroughly for valuables, obtain-
ing a \$2000 platinum wrist watch
inscribed with three large diamonds,
a bar pin set with twenty diamonds,
and \$48 in gold and currency. They
then calmly sauntered from the
house and are believed to have
driven away in an automobile
parked near the residence.

An audacious plan to tax the
capacity of the Council chamber
of the City Hall attended the
meeting. A series of talks ask-
ing harmony between the citizens
and the municipal government was
made by the members of the
reorganized board.

The changes were effected by the
combined votes of Edward A.
Gerety, who, for the third time was
chosen Mayor, and William G.
Luis and Fred A. Church. Mr.
Church, the only new member of
the board, was appointed as temporary
building inspector, and Justice of the
Peace Alfred McDonald as City
Attorney. Other vacancies will be
filled at the next meeting.

Dr. Ellis was born in Lincoln
Center, Mo., May 17, 1882. He
was educated at Acadia College,
Nova Scotia, and afterward took
post-graduate work at the Univer-
sity of Vienna. Coming to this
city in 1914, he began practicing
as a specialist in eye, ear, nose
and throat diseases.

Shortly after coming to this city
Dr. Ellis became professor of
ophthalmology in the college of
medicine of the University of Cal-
ifornia. During the thirty-eight
years he resided here, he served
the community in many impor-
tant capacities.

He had been president of the
Board of Education, the Los An-
geles Medical Society, the Califor-
nia State Medical Society, the
Southern California Medical So-
ciety and the University Club. He
was a man of great sympathy,
whose acts of charity were in-
numerable. He enjoyed an un-
usually wide circle of friends.

Joint Use of
Railroad Shops**

An operating agreement be-
tween the Southern Pacific and the
San Diego & Arizona Railways
whereby they will be permitted to
jointly occupy the Southern Pa-
cific shops at Calexico was ap-
proved yesterday by the State
Railroad Commission.

The authorization includes per-
mission for the joint use of the
Southern Pacific main line be-
tween El Centro and Calexico.
The agreement covers a period of
ten years, either road having per-
mission to terminate the contract
on nine months notice.

WOMAN AND MAID BOUND BY BANDITS

Armed and Masked Men
Then Get \$10,000 Jewels
in Daylight Burglary

Two desperate armed bandits
shortly before noon yesterday
invaded the Wilshire district, bound
and gagged Mrs. George W. Now-
lin, 628 South Alexandria Ave-
nue, and her maid, Alethea Lee,
ransacked the house and escaped
with diamonds and jewelry valued
at \$10,000.

According to the report made by
Detective Sergeant Herman Cline
and Longuevan, one of the band-
its went to the rear of the house
and gained entrance by repre-
sented himself as a peddler. He
then bound and gagged the maid
and let his accomplices in from the
front.

The second man was armed with
a revolver and a slingshot, and
wore a mask. The two went up-
stairs where Mrs. Nowlin was
sick in bed. They warned her to
make no outcry and threatened her
with their weapons to make her
reveal where her jewels were hid-
den. She was then forced into a
closet, trussed with ropes and
gagged.

The bandits searched the house
thoroughly for valuables, obtain-
ing a \$2000 platinum wrist watch
inscribed with three large diamonds,

TRUSTEES OUST CITY OFFICIALS

Venice Board Fulfills Pre-
Election Promises by
Sweeping Changes

Making good on pre-election
promises the newly elected Board
of Trustees at Venice last night
declared vacant four of the most
important positions held under
the municipal government.

Walton Crawford, city engineer;
William Ball, building inspector;
Joseph Reighner, superintendent
of canals and Charles W. Lyons,
City Attorney, came under the of-
ficial axe and are no longer on the
city pay roll. Fire Chief Hubbard
was appointed as temporary build-
ing inspector, and Justice of the
Peace Alfred McDonald as City
Attorney. Other vacancies will be
filled at the next meeting.

The changes were effected by the
combined votes of Edward A.
Gerety, who, for the third time was
